Clinton, MA 01510

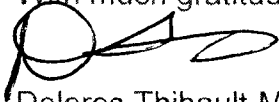

Thank you for your generous gift to Growing Places Garden Project!

Your gift helps us reach families in need and make great strides toward improving food security and nutrition education for children and adults in our community. With today's challenging economic climate and rising healthcare issues, teaching families to grow their own food, eat healthy meals, and save money at the grocery store is particularly important.

Since Growing Places was established 9 years ago, we have served 290 families who have grown enough food to feed over 800 people. Last year alone, we nearly doubled our business, introduced nutrition programs, and expanded our partnerships with local businesses to enhance the positive impact on our community.

On behalf of everyone at Growing Places Garden Project and all of the people who benefit from our services, thank you for your support. Together, we are strengthening our community and helping families to be more self sufficient and healthier.

With much gratitude,

Dolores Thibault-Munoz,
Interim Executive Director

Thank you!
So very much.
